#### SIRIUS AND THE DOG DAYS.

Time Has Worn Away the Link That Bound Them Together.

The dog days, when excessive heat is supposed to prevail, begin July 3, fish is free from the attacks of the littions and superstitions are connected with this period, and various dates are also given.

Aug. 24 while still others attribute the most of its members. malevolent influence of the dog star upon the earth to the period from Aug. 4 to Sept. 4, in accordance with the an-asite, however, and often forsakes its rient Egyptian reckoning. As a matter of fact, the rising of the log star, Canis Majoris or Sirius, has an outing trip to Portland, Me, and nothing to do with the affair at all. The rising of that star has been so ac-

> goxes during the passage of more than 2,000 years that the corresponding conditions for the ancient dog days no longer exist. In ancient times in the latitudes of the Mediterranean the period of greatest heat nearly corresponded with that time in which the dog star rose at the same time with the sun. To this con-

selerated by the procession of the equi-

followers of judicial astrology attributed a malignant influence. Among the modern notions regarding the dog days is the absurd belief that it is during this period that dogs are most likely to go mad .- St. Louis Post-Dis-

function all antiquity and all the later

### Diana of Ephesus.

Ephesus was one of the twelve Ionic

cities of Asia Minor and was situated in Ledia, near the mouth of the river Caystrus. According to Strabo, it was founded by Androclus, son of Codrus. It ultimately came into possession of the Romans, and in the time of Augustus it was the greatest place of trade of all the cities of Asia west of | Times. the Taurus. St. Paul resided there three years, but the destruction of its great temple by the Goths in 260 A. D. gave it a blow from which it never recovered. This was the famous temple of Diana. Near the western extremity of the town are still to be seen some massive structures, which have since 1868 been carefully excavated. It is now certain that these stand on the famous temple site.

#### GREEN SHELLED FLEAS.

Tiny Parasites That Attack Nearly All Fresh Water Fish. Scarcely any species of fresh water

according to the ancient reckoning, and | the disklike fish flea, its flattened, greencontinue to Aug. 11. All sorts of tradi- ish body being pressed close against the skin of the usn. The so called fish louse is neither flea nor louse, but a member of a simple
